Most of the items in this file were graded TS at the time (and they are so listed in the attached shelf list); also included, and noted, are related papers, graded Secret and below. However, this file is not to be confused with ORE's bulkier, collateral files of "Secret" (and below) ORE's and IM's, which were separately maintained and which had previously been retired by ORR (in January and March 1953), in accession Job No. 53-1 and Job No. 53-64.
